Part 1 – Adjustments Budget

1.1 Mayor's Report

During January 2014 the implementation of the budget and financial performance of the municipality was assessed for the first half of the financial year, taking into consideration the monthly budget statements. According to this assessment it was recommended to Council that the 2013/2014 annual budget be amended in February 2014 to revise projections for revenue and expenditures amongst the different votes. The main reasons for the revision can be summarised as follows:-

1. Adjusted Rates Income due to the trend analysis for the past six months, and also comparing the actual amount for the last financial year, therefore the revenue was reduced by R6, 1 million. Rates have been adjusted due to the finalisation of the Valuation Appeals Board review of the Municipal decision on the objections and appeals lodged against the General Valuation Roll and the two Supplementary Valuation Rolls, has been processed.
2. Additional operating grant allocations to uMngeni Municipality in respect of the Department of Arts and Culture Grants (Library and Museum) which amounts to R641, 000.00.
3. Roll-over approval of operating grants (Financial Management Grant, Municipal Systems Grant) were received late in the 2013/2014 financial year.
4. Increase in the purchase of electricity expenditure due to the electricity losses experienced throughout the year.
5. Transfer of amounts between votes which could not be covered by the Virement Policy of the Municipality.

Although all of the above affected the original budget to the extent that the total operating expenditure increased from R257,3 million to R 259,0 million, the revenue decreased from R269,8 million to R268,0 million leaving a surplus of R 443 000. This will have no effect on the rate randage or any other tariffs and charges of the municipality. I therefore recommend that the Adjusted Budget as set out in the Tables B1 to B10 be approved by Council for the 2013/14, 2014/15 and 2015/16 financial years.

1.2 Council Resolutions

On 26 February 2014 the Council of uMngeni Local Municipality met in the Council Chambers of uMngeni Municipality to consider the adjustments budget of the municipality for the financial year 2013/2014. The Council approved and adopted the following resolutions:

1. That Council adopts the Adjustments Budget for the 2013/2014 financial year in terms of section 28 of the Municipal Finance Management Act, No. 56 of 2003 as set out in the following adjustments budget tables:

- 1.1 Table B1: Adjustments Budget Summary
 - 1.2 Table B2: Adjustments Budget Financial Performance (Standard Classification)
 - 1.3 Table B3: Adjustments Budget Financial Performance (Revenue & Expenditure by Vote)
 - 1.3.1 Table B4: Adjustments Budget Financial Performance (Revenue by Source and Expenditure by Type)
 - 1.4 Table B5: Adjustments Capital Expenditure Budget by Vote & Funding
 - 1.5 Table B6: Adjustments Budget on Financial Position
 - 1.6 Table B7: Adjustments Budget on Cash Flow
 - 1.7 Table B8: Cash Backed Reserves / Accumulated Surplus Reconciliation
 - 1.8 Table B9: Asset Management
 - 1.8.1 Table B10: Basic Service Delivery Measurement
2. That the Adjustments Budget as per section 21 of the Municipal Budget & Reporting Regulations be submitted to Provincial and National Treasuries within 10 days after approval by Council.

1.3 Executive Summary

The format and contents of the adjustments budget and supporting documentation must be in the format as specified in schedule B of the Municipal Budget and Reporting Regulations. The adjustments budget as submitted herewith contains the applicable adjustments budget tables B1 to B10 and supporting tables SB1 to SB20.

It should be noted that municipal taxes and tariffs may not be increased during a financial year, and any amendments to the annual budget must remain funded in accordance with section 18 of the Municipal Finance Management Act, No. 56 of 2003 (MFMA).

Table B1 provides details on the adjusted budgeted financial performance, whilst table B4 and supporting table SB1 provides adjusted budgetary information for revenue by source and expenditure by type.

Table B5 provides details on the adjusted capital expenditure by vote and funding.

Table B6 provides details on the adjusted budgeted financial position and table B7 as the adjusted budgeted cash flows.

Table B8 summarises the cash-backed reserves and accumulated surplus reconciliation whilst table B9 provides details on asset management.

Table B10 deals with the basic service delivery measurement.

The adjustments budget herewith presented provides for a decrease in the total operating revenue of R1, 8million to the amount of R 268, 0 million (original budget: R269, 8 million). When analysing this, the following factors become apparent.

- (a) Property rates reflect a decrease of R 6, 1 million. This is mainly due the trend analysis for the past six months and also comparing the actual amount for the last financial year.
- (b) Transfers recognised-operational increased by R641, 000.00 due to additional transfer as per the Gazette.
- (c) Other own revenue increased by R4, 4 million due to the approved roll-overs by National Treasury and the Department of Co-Operative Governance and Traditional Affairs (COGTA) for the Expanded Public Works Programme (EPWP), Debtors Data Cleansing , MSIG and FMG.

The adjusted operating expenditure increased to R259, 0million (original budget: R257, 3 million) which reflects an increase of R 1, 7 million. The main contributing factors for this decrease are as follows:

- (a) Other expenditure decreased by R2, 9 million.
- (b) Bulk purchases increased by R3, 4million due to electricity losses.

The balance of the increased expenditure is funded from the revenue and the utilisation of projected savings in one vote towards spending in another vote. Although the total budget

reflects a surplus of R 443, 000.00 of the services must individually be monitored to ensure that it remains sustainable and costs are recovered from tariffs. From this exercise it is projected that the electricity service will probably close off with a deficit of R7 million.

The adjusted capital expenditure for 2013/2014 amount to R43, 3 million which is R11, 1 million more than the original budget of R32, 2million. This is attributed to the Mandela Corridor Development transferred by Cogta.

1.4 Adjustments Budget Tables

The following pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2013/2014 budget and MTREF as approved by the Council. Each table is accompanied by explanatory notes.

Explanatory notes to MBRR Table B1 – Adjustments Budget Summary

1. Table B1 is a budget summary and provides a concise overview of the Municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
 - (a) The operating surplus / deficit (after Total Expenditure) is positive over the MTREF
 - (b) Capital expenditure is balanced by capital funding sources, of which
 - (i) Transfers recognised is reflected on the Financial Performance Budget;
 - (ii) Borrowing is incorporated in the net cash from financing on the Cash Flow Budget
 - (iii) Internally generated funds are financed from a combination of the current operating surplus. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget
4. Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor. The section of Free Services shows that the amount spent on Free Basic Services and the revenue cost of free services provided by the municipality continues to increase. In addition, the municipality continues to make progress in addressing service delivery backlogs.

Explanatory notes to MBRR Table B2 – Adjustments Budgeted Financial Performance (revenue and expenditure by standard classification)

1. Table B2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 9 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.
2. Other functions that show a deficit between revenue and expenditure are being financed from rates revenues and other revenue sources reflected under Executive and Council.

Explanatory notes to MBRR Table B3 – Adjustments Budgeted Financial Performance (revenue and expenditure by municipal vote)

1. Table B3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the Municipality. This means it is possible to present the operating surplus or deficit of a vote.
2. The electricity trading deficit is deteriorating over the 2013/2014 MTREF. This is primarily as a result of the high increases in Eskom bulk purchases, distribution losses and the tariff setting policy of the municipality to buffer the impact of these increases on individual consumers.
3. Note that the deficit on the electricity account is cross-subsidised by rates and other municipal services.

**EXPLANATORY NOTES TO TABLE B4 – Adjustments Budgeted Financial Performance
(revenue and expenditure)**

1. Total revenue is R268, 0million in 2013/2014 and escalates to R306, 3 million by 2015/2016. This represents a year-on-year increase of 13 percent for the 2013/14 financial year and B, percent for the 2014/15 financial year.
2. Revenue to be generated from property rates is R111, 7 million in the 2013/2014 financial year and increases to R131, 3million by 2015/16 which represents 43, 5 per cent of the operating revenue base of the Municipality and therefore remains a significant funding source for the municipality.
3. Service charges relating to electricity and refuse removal contributes to the revenue basket of the Municipality totalling R68, 1 million for the 2013 / 2014 financial year and increasing to R 80,9million by 2015/16. For the 2013/14 financial year service charges amount to 25, 1 per cent of the total revenue base and decrease to 18, 8 per cent per annum over the medium-term. This growth can mainly be attributed to the increase in the bulk prices of electricity.
4. Transfers recognised – operating includes the local government equitable share and other operating grants from national and provincial government. Additional grant in the amount of R641, 000.00 will be received from Department of Arts and Culture for the Museum.
5. Bulk purchases have significantly increased over the 2013/14 to 2015/16 period escalating from R73, 4 million to R81, 5 million. These increases can be attributed to the substantial increase in the cost of bulk electricity from Eskom as well as electricity losses due to theft and illegal connections.
6. Employee related costs and bulk purchases are the main cost drivers within the municipality and alternative operational gains and efficiencies will have to be identified to lessen the impact of wage and bulk tariff increases in future years.

Explanatory notes to Table B5 – Adjustments Budgeted Capital Expenditure by vote, standard classification and funding source

1. Table B5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
2. The MFMA provides that a municipality may approve multi-year or single-year capital budget appropriations.
3. Single-year capital expenditure has been appropriated at R43, 3million for the 2013/2014 financial year and increases over the MTREF at levels of R38, 4 million and R38, 4 million respectively for the two outer years (R 43, 3 includes the additional transfer from Cogta of R15million for Mandela Capture Site).
4. Unlike multi-year capital appropriations, single-year appropriations relate to expenditure that will be incurred in the specific budget year such as the procurement of vehicles and specialised tools and equipment. The budget appropriations for the two outer years are indicative allocations based on the departmental business plans as informed by the IDP and will be reviewed on an annual basis to assess the relevance of the expenditure in relation to the strategic objectives and service delivery imperatives of the Municipality. For the purpose of funding assessment of the MTREF, these appropriations have been included but no commitments will be incurred against single-year appropriations for the two outer-years.
5. The capital programme is funded from capital grants and internally generated reserves. For 2013/2014, capital transfers totals R34, 9 million and internally generated funding totalling R8, 4 million.

Explanatory notes to Table A6 – Adjustments Budgeted Financial Position

1. Table B6 is consistent with international standards of good financial management practice, and improves understandability for councilors and management of the impact of the budget on the statement of financial position (balance sheet).
2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
3. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
4. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table B7 – Adjustments Budgeted Cash Flow Statement

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

Explanatory notes to Table B8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.

Explanatory notes to Table B9 - Asset Management

1. Table B9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.

Table 10 MBRR Table B10 - Basic Service Delivery Measurement--2**Explanatory notes to Table B10 - Basic Service Delivery Measurement**

1. Table B10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. The Municipality continues to make good progress with the eradication of backlogs:
 - a. Electricity services – backlog has been reduced. As indicated elsewhere, the emphasis in the electricity sector is on addressing urgent network upgrades. Once the most pressing network issues have been addressed, the electrification programme will be prioritised, with all households in rural areas budgeted to be electrified in 2015/2016.
 - b. Refuse services – It should be noted that this function is being investigated with a view to realising greater efficiencies, which is likely to translate into a more rapid process to address backlogs.
3. The budget provides for 17304 households to be registered as indigent in 2013/2014, and therefore entitled to receiving Free Basic Services. The number is set to increase to 3000 households given the rapid rate of in-migration to the Municipality, especially by poor people seeking economic opportunities.
4. It is anticipated that these Free Basic Services will cost the municipality R6, 8 million in 2013/2014, increasing to R9, 8 million in 2015/16. This is covered by the municipality's equitable share allocation from national government.
5. In addition to the Free Basic Services, the Municipality also 'gives' households R 55,4million in free services in 2013/2014. This 'tax expenditure' needs to be seen within the context of the municipality's overall revenue management strategy – the more the municipality gives away, the less there is available to fund other services.

Part 2 – Supporting Documentation

Part 2 of the Adjustments Budget contains supporting tables SB1 to SB20 of which information on the supporting tables is as follows:-

1. Adjustments to Budget Assumptions

Employee related costs have increased due the Resolution that was taken by Council to give the Line Managers Car Allowances and Cell phone Allowances from December 2013, this was not catered for in the Original Budget, therefore this adjustment had to be made in this budget and the resolution that was taken to pay Natal Joint Municipal Pension on behalf of Mr Graham Myklebust an amount of R 497,113.10 also contributed to an increase in Employee Related Costs. The collection rate for rates also resulted in an increase in the rate income due to the finalisation of the review by the Valuations Appeals Board which was concluded last year in November and we are waiting also for Cogta to appoint the new members of Appeals Board to deal with the new matters in terms of Section 52(1) and Section 54. The other budget assumptions with the compilation of the 2013/2014 annual budget have remained more or less the same.

2. Adjustments to Budget Funding

There is decreased expenditure on other expenditure of R2, 3 million, on the capital side, the amount of R15 million is funded from the Cogta which is catered for in the cash-flow forecast up to June 2014. All conditional grants will either be spent and / or invested by 30 June 2014 on those projects that will not be completed by 30 June 2014.

The investments of the municipality have increased from R 21,9million to R41, 6 million. However, it is anticipated that all capital expenditure will be realised by 30 June 2014 and the available investments will be reduced to the absolute minimum to ensure that capital projects are completed.

2. Adjustments to Expenditure Allocations and Grant Programme

Supporting Table SB8 provides details on the adjusted expenditure on transfers and grant programmes. The main adjustments are on other grant providers which can be summarised as follows:-

- (a) The funding from the Department of Co-Operative Governance and Traditional Affairs (COGTA) – R15, 000,000.00 for the Mandela Corridor Development.
- (c) The additional funding received from Department of Arts and Culture for the Museum.
- (d) An amount of R465 000 was withheld by Treasury due to non-spending on the 2012/2013 FMG allocation.

4. Adjustments made to allocations or grants made by the Municipality

Supporting table SB10 provide the details of grants made by the municipality. This schedule reflects that no grants were made although grants of R10, 000.00 per month were made to the Zulu Mpophomeni Tourist Organisation and the Nottingham Road Tourist Organisation and R18, 000.00 per month to the Lions River Protection Services. These expenditures are reflected under Other Expenditures on SB1.

5. Adjustments made to Councillor Allowances and Employee Benefits

Supporting Table SB11 provides details on the proposed adjustments to councillor and staff benefits.

6. Adjustments made to Service Delivery and Budget Implementation Plan

Supporting tables SB13, SB14, SB16 and SB17 reflects the adjustments to the monthly targets for operating revenue and expenditure as well as capital expenditure. It is envisaged that operating revenue to the amount of R141, 7 million will still realise from January 2014 to June 2014 whilst operating expenditure to the amount of R161, 4million is planned. Increased capital expenditure of R15 million is envisaged for the rest of the financial year. The financial indicators presented with the annual budget remain unchanged and the projected performance indicators and benchmarks are reflected in supporting tables SB4.

7. Adjustments made to Capital Expenditure

The adjustment to the capital programmes are reflected in supporting table SA19 and constitute an increase in capital expenditure of R 15 million. No adjustments to the outer financial years were necessary at this stage and it is envisaged that the goals as per the IDP will be met. The affected asset classes are contained in Table B9.
